Application Developer Job Description

APPLICATION DEVELOPER RESPONSIBILITIES INCLUDE:

- Understanding client requirements and how they translate to new application features
- Collaborating with development team and other IT staff to set specifications for new applications
- Writing high-quality code to program complete applications on schedule

JOB BRIEF

We are looking for a qualified **Application Developer** to design and code functional programs and applications. You will work as part of a team and individually with little supervision.

A great Application Developer has excellent knowledge of at least one programming language. They must be familiar with a variety of operating systems and platforms. The ideal candidate will also have an analytical mindset and a keen eye for detail.

The goal is to write “clean” and flawless code to produce fully functional software applications according to requirements.

RESPONSIBILITIES

- Understand client requirements and how they translate in application features
- Collaborate with a team of IT professionals to set specifications for new applications
- Design creative prototypes according to specifications
- Write high quality source code to program complete applications within deadlines
- Perform unit and integration testing before launch
- Conduct functional and non-functional testing
- Troubleshoot and debug applications
- Evaluate existing applications to reprogram, update and add new features
- Develop technical documents and handbooks to accurately represent application design and code

REQUIREMENTS

- Proven experience as application developer
- Experience in designing and building applications
- Ability to program in at least one programming language such as C#, Java (J2EE) etc.
- In-depth knowledge of programming for diverse operating systems and platforms using development tools
- Excellent understanding of software design and programming principles.
- A team player with excellent communication skills
- Analytical thinking and problem-solving capability
- Great attention to detail and time-management skills
- BSc/BA in computer science or relevant field; MSc/MA will be appreciated
- Certified application developer is a plus
