

Give A Quick Employee Workplace Safety and Violence Survey

Conduct a quick survey of your employees today and see where you stand in their eyes on the safety measures you have implemented in your workplace. Use this information to build your workplace safety check procedures and policies to better ensure the safety of your employees.

As part of the use of this survey send your employees a letter or present to them in a meeting information about the purpose and use of this survey. Provide employees the option of completing this survey anonymously.
