

Need for Workplace Naloxone Kit Assessment Form

written by Tina Tsonis | March 20, 2023

Should you implement a naloxone program in case somebody suffers an opioid overdose at your workplace? Here's a template assessment form you can use to make that determination. **Note:** If you're in Ontario, you must implement a naloxone program at your workplace by June 1, 2023 if the risk of overdose at your site is high.

Company Name:

Date:

RISK: (List all staff, client groups, visitors and members of the public who may be at risk of suffering an opioid overdose at your workplace)

RISK ASSESSMENT: (Provide a general description of the risks to staff, client groups and members of the public)

RISK CONTROLS: (Provide a general description of the measures, if any, that are currently in place to minimize the identified risks to each group and what, if any, gaps exist)
