

Occupational Health and Safety Policy

1. PURPOSE

- The purpose of this policy is to state ABC Company's commitment to the occupational health and safety of the workplace and to outline the responsibilities of workers, the safety coordinator, management, supervisors and contractors in health and safety matters.

2. ABC COMPANY'S SAFETY COMMITMENT

- ABC Company's senior management is committed to providing a healthy and safe work environment and to working with employees to:
- At a minimum, comply with all relevant statutes, regulations, standards of regulatory authorities, and collective agreements representing occupational health and safety;
- Strive to go beyond legal requirements and achieve a standard of excellence in health and safety;
- Conduct hazard assessments and implement controls to protect all employees, visitors and contractors against identified hazards at the workplace;
- Implement policies to protect all employees against occupational health and safety hazards encountered in the process of performing their duties;
- Formulate, implement and promote safe and healthy working practices and awareness through training, education and the implementation of health and safety processes; and
- Support the investigation and implementation of environmentally responsible approaches to health and safety.

ABC Company will ensure that appropriate resources are made available to achieve these ends.

All employees should be familiar with the requirements of British Columbia's occupational health and safety legislation as it relates to their work processes and procedures to achieve improved health and safety conditions at the Company's work sites.

3. INDIVIDUAL RESPONSIBILITIES

Individuals have a responsibility to carry out their assigned duties. For a health and safety program to achieve its desired results, everyone in a workplace must know their responsibilities.

4. WORKERS

- Carry out work in a way that doesn't create a health and safety hazard to themselves or others.
- Help to identify, control and minimize hazards that can lead to illnesses and injuries.
- Report any incidents that occur, including near misses that don't result in injuries or illnesses.
- Use the right tools and equipment for the job.
- Inspect, clean and maintain tools and equipment in good and safe condition.
- Use all required safety equipment and protective clothing.
- Report defects in workplace equipment.
- Read, understand, and follow all workplace health and safety policies, safe work practices and procedures.
- Co-operate with JHSC members, health and safety representatives, the ABC safety coordinator and other company officials.

5. SAFETY COORDINATORS

- Advise management and workers on:
- Preventing injury and illness to personnel.
- Preventing damage to plant and equipment.
- Legal requirements affecting safety and health, including but not limited to use of protective clothing and equipment, suitability from a safety viewpoint of new equipment and validity of all appropriate test certificates.
- Potential hazards on new contracts and precautions necessary before work starts.
- Changes in health and safety laws.
- Safety coordinators are also responsible for:
- Recording and analyzing information about injuries, illness, damage and production loss.
- Assessing accident trends and reviewing overall safety performance.
- Maintaining contact with regulatory and professional bodies.
- Participating in workplace discussions on injury, health and damage control.
- Staying current on recommended codes of practice and new safety and health literature.
- Administering the ABC Company safety program.
- Helping in accident investigations, analysis and preparation of accident reports and summaries.
- Preparing inspection reports.
- Ensuring that corrective action is taken to remedy identified deficiencies.
- Helping with safety seminars and training.

6. SENIOR EXECUTIVE MANAGERS

- Providing a statement of policy relating to the safety program
- Maintaining overall control of the safety and loss prevention program
- Ensuring that all safety policies are administered and enforced
- Ensuring that all personnel are aware of and compliant with the policies and

- procedures set out in the health and safety program
- Providing information, instructions and help to supervisory staff to protect the health and safety of all workers
