

# Oracle HCM World: Modern HR

This week on the HR Happy Hour Show, Steve Boese and Trish McFarlane sat down with **Gretchen Alarcon**, Vice President of Oracle HCM Strategy for Oracle, for an interesting and fun conversation about some of the most important challenges facing the modern HR leader and the organization as we head into 2014, as well as how advances in HCM technologies are helping organizations to meet those challenges, and to offer some ideas about what some of the most intriguing HR and workplace technologies will have in store for us in the future.

Additionally, Gretchen gave us a preview of the upcoming and inaugural Oracle HCM World event to be held **February 4-6, 2014 at the Venetian in Las Vegas**. At Oracle HCM World, there will be over 100 sessions featuring HR leaders, industry experts, and recognized thought leaders sharing their insights and experiences – all designed to help attendees improve employee engagement, to provide new strategies for talent attraction, development, and retention, and to support professional networking and knowledge sharing.

It was a fun and enlightening conversation with Gretchen, and many thanks to her and the Oracle HCM team for joining us this week.
