

# Pandemic Preparation: Business Continuity Planning

Organizations need to get ahead of the COVID-19 curve if they have not already done so. What does this mean for your business?

It means remaining focused on maintaining business continuity for the foreseeable future.

In our latest release, Info-Tech Research Group covers the business continuity (BCP) landscape with the ***Develop a Business Continuity Plan*** research bundle. If you don't have a BCP, now is the time to get one. If you have one, allow us to review it with you. We'll help you streamline the traditional approach to make BCP development manageable and repeatable.

Info-Tech will continue to share the latest research materials to help you make the best possible decisions for your organization and stakeholders.
