

Pandemic Preparedness Checklist

Coronavirus represents the third pandemic threat posed to Canada in the past few years. In 2007, it was avian influenza; in 2010, it was H1N1. It has now become incumbent on organizations to prepare for disruptions and institute plans to maintain operations in the event of pandemic. As a safety coordinator, you should play a significant role in pandemic planning at your organization. This Checklist sets out a planning framework you can use to meet the challenge. Use this Checklist to organize your pandemic planning preparations and evaluate their comprehensiveness and effectiveness.
