SAFEOPEDIA Presents: SAFETY LEADERSHIP DEVELOPMENT SYSTEM – A Three Part Workshop Series

The Human Factor in Safety

SAFETY LEADERSHIP DEVELOPMENT SYSTEM

3-day live online workshop series

Dates: June 9, June 16 & June 23

Speaker: Corrie Pitzer

Register here to enroll in this 3-part workshop

Safety is a journey that starts with a vision set by ‘leaders’, and not as targets set by ‘managers’. It is different! It has no end point, no destination, and no final victory – where ‘zero’ is not a number!

The workshop is conducted over 3 virtual sessions (3 hours each), targeting management levels, and has the following outcomes:

- All leaders will have personal growth plans and self-development actions
- Behavioral coaching guidelines
- Improvement in organizational effectiveness
- Create strategic capacity of leadership
- Receive a 360-degree leadership profile
- Receive a personal leadership style profile and analysis
- Receive a personal development plan for leadership improvement
- Receive a focused project to test and develop new leadership skills with Partnerships with other leaders in your company
- Gain the ability and tools to get and give feedback on behaviors
- Gain clarity of leadership accountabilities
