

The Cost Of Musculoskeletal Disorders to an Organization

Webinar: The Cost of Musculoskeletal Disorders to an Organization

Date: July 27th, 2016

Doug Dickinson, a managing consultant with a global engineering firm, is going to discuss the cost of musculoskeletal disorders to organizations, ergonomic risk factors in an industrial setting and how to control or eliminate these risk factors and costs.

Doug has a long and diverse background in safety, emergency preparedness, response and communications. He has worked tirelessly in providing a safe and healthy workplace for employees. He served as Senior Safety Manager at T-Mobile and created compliant safety and training programs that helped lower loss rates to best in industry. He also served as an EMT for 29 years and currently participates in mountain and urban search and rescue.
