Violence Policy

You may already have a Workplace Violence Program in place, or you may be just realizing that you need one. Either way, it's important to determine whether your program complies with OHS laws and due diligence; click on the links below to access our brand new **Workplace Violence Policy Builder**.

How do I get started?

Great question!

1. Just click on the link for the appropriate Province and download the file.
2. Unzip the folder to your desktop or workspace.
3. Open the WORD document titled "[*province*].WPV.Inst" and follow the step by step instructions to fill out the fields.

Depending on your desktop/workspace security settings, you may have to enable macros for the WORD template to work properly. The interactive WORD document will output your complete Workplace Violence Policy once you have answered all the necessary fields.

What does it do for me?

Another great question!

In a matter of anywhere from a few minutes to up to an hour, you will have a unique, tailored, specific, and compliant Workplace Violence Program that you can save, print, and implement at your company. No need for lawyers. No need for consultants. Just you, some easy to answer questions, and a perfectly legal program on the output…
